Dear Mr. Chairman and Board Members:

Genesee County

Paul J. Battaglia

Submitted herewith for your information and review is the Comprehensive Annual Financial Report (CAFR) of the Rochester-Genesee Regional Transportation Authority (the "Authority") for the fiscal year ended March 31, 2012.

Livingston County

Milo I. Turner

Our CAFR is the standard report for presenting the annual results of the Authority's operations, financial position, cash flows, and related statistical information. The report, which is prepared by staff of the Finance Department, incorporates the Independent Audit Report for fiscal year 2011-12, prepared by Bonadio & Co., LLP.

Orleans County

Henry Smith, Jr.

Seneca County

Edward W. White
Secretary

The CAFR represents the Authority's strong commitment to provide accurate, concise, and high quality financial information to the Board of Commissioners, the general public, and other interested parties. The content and format of the report have been prepared in accordance with standards promulgated by the Government Finance Officers Association (GFOA) of the United States and Canada. These standards require that a governmental unit publish a readable and well organized annual financial report that satisfies both generally accepted accounting principles and applicable legal requirements.

Wayne County

Michael P. Jankowski
Treasurer

This report contains financial statements and statistical data that provide full disclosure of all of the material financial operations of the Authority for the fiscal year ended March 31, 2012. The financial statements, supplemental schedules, and statistical information are the representations of Authority management, which bears the responsibility for their accuracy, completeness, and fairness.

Wyoming County

Frank Vitagliano, Jr.
Vice Chairman

Reporting Entity

The Authority is a public benefit corporation and a component unit of the State of New York. Created in 1969 by an act of the State Legislature, the Authority is charged with the continuance, further development and improvement of public transportation, and other related services within the Genesee/Finger Lakes region of the state.

In 1969, Monroe County was the sole member of the Authority. Since that time, membership in the Authority has grown to seven counties with a total land area of 3,698 square miles and population of approximately 1.1 million. Current member counties include Monroe, Genesee, Livingston, Orleans, Seneca, Wayne, and Wyoming.

A thirteen-member Board of Commissioners (Board) establishes policy and sets direction for the management of the Authority. The Commissioners are representative of the various member counties of the Authority and are appointed by the Governor of New York State and confirmed by the New York State Senate. Board membership is apportioned among the member counties based on population.

Current membership is as follows: City of Rochester, three (3); Monroe County, four (4); and one (1) member each from Genesee, Livingston, Orleans, Seneca, Wayne, and Wyoming counties. The Authority has separate legal standing from each of the member counties.

The Authority also acts as administrative host agency for the Genesee Transportation Council Staff, Inc. (GTCS). GTCS is the legal entity that acts as financial agent for the Genesee Transportation Council (GTC), the Metropolitan Planning organization for the Genesee Finger Lakes Region. The Central Staff of GTC, although technically employees of GTCS, is subject to the direction of the GTC Board which is comprised of representatives of the member agencies of GTC. GTCS is presented as a blended organization within the Authority's financial statements.

Responsibility for the administration of the Authority rests with the Chief Executive Officer, subject to the policies and oversight of the Board of Commissioners. An organizational chart follows in this introductory section.

The Authority is comprised of ten (10) separately incorporated business units. A list of the various business units and their respective functions is below.

1. Rochester Genesee Regional Transportation Authority, Inc. (Authority) - Corporate governance.
2. Regional Transit Service, Inc. (RTS) - Fixed route operations serving the urbanized areas of the City of Rochester and surrounding areas in Monroe County. RTS is by far the largest business unit representing over 80% of all operating expenses.
3. Lift Line, Inc. (LL) - Paratransit services which complement RTS fixed route services, in accordance with the Americans with Disabilities Act.
4. Batavia Bus Service, Inc. (BBS) – Fixed and flexible route operations for Genesee County.
5. Livingston Area Transportation Service, Inc. (LATS) – Fixed and flexible route operations for Livingston County.
6. Orleans Transit Service, Inc. (OTS) – Fixed and flexible route operations for Orleans County.
7. Seneca Transit Service, Inc. (STS) – Fixed and flexible route operations for Seneca County.
8. Wayne Area Transportation Service, Inc. (WATS) – Fixed and flexible route operations for Wayne County.
9. Wyoming Transit Service, Inc. (WYTS) – Fixed and flexible route operations for Wyoming County.
10. Genesee Transportation Council Staff, Inc. (GTCS) - Administrative host agency for Genesee Transportation Council.

On a consolidated basis, the Authority had 673 (FTE) employees as of March 31, 2012. During fiscal year 2011-12, the Authority provided service to a total of 18.4 million customers, representing an increase of 3.7% over the prior year. The revenue service fleet totaled 407 vehicles comprised of 361 fixed route and 46 Paratransit dedicated vehicles.

Economic Environment

Department of Labor employment level statistics within the RGRTA service area indicate that the jobless rate has increased over the past year, increasing from 7.7% to 8.3%. The total civilian work force over the same period has increased from 534,171 to 538,617. The combined total of retail, service, and government employment has decreased slightly from 76.2% to 76.1% of the total work force composition. Combined manufacturing and construction employment has increased slightly from 15.8% to 15.9%, while all other types (finance, insurance, etc.) represent 8.0%.

The total population of the Authority's service area has remained essentially flat over the past ten years, hovering at slightly less than 1.1 million. The population of the City of Rochester has declined overall by 1.5% since 2003, while the population of Monroe County outside of the City has grown 2.2% over the same period.

Year	Monroe		Genesee	Livingston	Orleans	Seneca	Wayne	Wyoming	Total
	Rochester	Suburbs							
2003	214,058	523,362	59,506	63,880	43,201	34,712	93,054	42,636	1,074,409
2011	210,855	534,770	59,993	65,070	42,622	35,198	93,436	41,944	1,083,888
% Change	-1.5%	2.2%	0.8%	1.9%	-1.3%	1.4%	0.4%	-1.6%	0.9%

Financial Planning and Performance Measurement

Each fiscal year the Authority's Board of Commissioners adopts a Comprehensive Plan (the "Plan") that encompasses a strategic, operating, and financial plan. The strategic plan identifies the strategies which support the Authority's vision and mission. The operating plan identifies the tactics to be undertaken to achieve the strategies. The financial plan includes the fiscal year operating budget and capital investment plan necessary to accomplish the operating tactics; and, a multi-year operating budget projection covering the next three fiscal years.

The Authority's annual Six Year Capital Improvement Plan (CIP) identifies all proposed capital investments needed to support and enhance the Authority's fixed assets including replacement of revenue vehicles and other equipment; improvements to facilities; and investments in technology.

The Multi-Year Budget Forecast assists the Board and management in the identification of potential future fiscal challenges for the three (3) year period beyond the current fiscal year. Using historical data, trends, known and estimated operating revenue and expense factors for all subsidiary companies, the Multi-Year Budget Forecast identifies projected annual net income or deficits, inclusive of projected subsidies from other levels of government. Twice annually, the forecast is updated with the latest information to ensure that the forecast retains its relevancy. These forecasts enable management to proactively meet future challenges.

The Authority uses a comprehensive performance measurement system to measure success in the achievement of clearly established metrics. This system, known as TOPS (Transit Organization Performance Scorecard), provides a comprehensive report on achievement versus goal for a wide variety of metrics that are tied to the Authority's strategic goals. The TOPS score is reported to the Board and community on a quarterly basis to provide complete transparency of the Authority's performance. TOPS has proven to be a highly effective management tool.

Other Information

Independent Audit The Authority's Financial Statements have been audited by Bonadio & Co., LLP Certified Public Accountants. The goal of the independent audit was to provide a reasonable assurance that the financial statements of the Authority for the fiscal year ended March 31, 2012, are free of material misstatement. The independent audit involved examining,

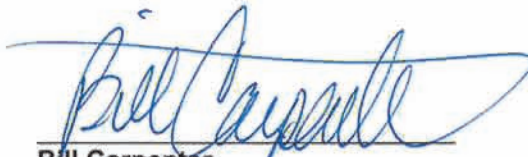

on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the Authority's financial statements for the fiscal year ended March 31, 2012, are fairly presented in conformity with Generally Accepted Accounting Principles (GAAP). The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Authority's MD&A can be found on page 13 of this document, immediately following the report of the independent auditors.

Awards We proudly note that for the seventh consecutive year, the Government Finance Officers Association (GFOA) has awarded the Authority with a Certificate of Achievement for Excellence in Financial Reporting for its CAFR inclusive of fiscal year ended March 31, 2011. The Certificate of Achievement is valid for a period of one year. We believe that the current CAFR continues to meet the requirements for the Certificate of Achievement and will submit it to the GFOA review panel for determination of eligibility for another certificate.

In addition, for the fourth consecutive year the Authority received the GFOA Distinguished Budget Presentation Award for its 2011-12 Annual Comprehensive Plan.

Acknowledgements The publication of this report is a reflection of the level of excellence and professionalism of the Authority's management and staff. This report significantly improves the accountability of the Authority to other governmental entities that provide financial assistance to the Authority and, of course, to the taxpayers who ultimately support all levels of public service. We would like to express our appreciation to the staff of the Finance Department who contributed to the preparation of this report.

INDEPENDENT AUDITORS' REPORT

June 21, 2012

To the Commissioners of
Rochester-Genesee Regional Transportation Authority:

We have audited the accompanying financial statements of the Rochester-Genesee Regional Transportation Authority and each of its blended component units (the "Authority," a New York State public benefit corporation, which is a component unit of the State of New York) as of and for the year ended March 31, 2012, which collectively comprise the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express opinions on these financial statements based on our audit. The prior year summarized comparative information has been derived from the Authority's 2011 financial statements and in our report dated June 17, 2011, we expressed unqualified opinions on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority and each of its blended component units as of March 31, 2012, and the individual and consolidated results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 21, 2012, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

INDEPENDENT AUDITORS' REPORT

(Continued)

Accounting principles generally accepted in the United States require that the management's discussion and analysis on pages 3 through 16 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority and each of its blended component units taken as a whole. The accompanying supplementary information included in Exhibit I is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

Bonadio & Co., LLP

Note: The Management's Discussion and Analysis page reference above refers only to the original Independent Audit Report. In this CAFR, the Management Discussion and Analysis is contained on pages 13 through 26.

ROCHESTER-GENESEE REGIONAL TRANSPORTATION AUTHORITY (A Component Unit of the State of New York)

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) AS OF AND FOR THE YEAR ENDED MARCH 31, 2012

Overview of the Financial Statements

Rochester-Genesee Regional Transportation Authority (Authority) is a public benefit corporation and a component unit of the State of New York. Through its enabling legislation, the Authority is charged with the provision of public transportation service throughout the respective jurisdictions of its seven (7) member county governments, a combined area of 3,700 square miles with a population of 1.1 million. The Authority itself is comprised of nine (9) component units. Corporate governance is provided through Rochester-Genesee Regional Transportation Authority, Inc.. Transit operations are provided through eight (8) units. Regional Transit Service (RTS) and Lift Line Inc. provide fixed route and demand responsive service, respectively, within Monroe County. Transit services for each of the other member counties (Genesee, Wyoming, Orleans, Wayne, Livingston, and Seneca) are provided by a unit designated for each county. The Authority also acts as administrative host agency for the region's metropolitan planning organization, Genesee Transportation Council (GTC). The financial statements for the Authority and all nine (9) component units are prepared in conformance with generally accepted accounting principles.

The Authority's basic financial statements consist of a statement of net assets; a statement of revenue, expenses, and changes in net assets; a statement of cash flows; and notes to the financial statements.

The Authority's fiscal year runs from April 1st through March 31st. The statement of net assets presents the financial position of the Authority as of March 31, 2012. Conversely, the statement of revenue, expenses, and changes in net assets provides a summary of the Authority's activities and operations for the entire 2012 fiscal year. The statement of cash flows presents relevant information about the cash receipts and cash payments for the reporting period. The notes to the financial statements provide important supporting information to aid in understanding the financial statements.

The following discussion of the Authority's financial performance provides an overview and analysis of key data contained within the Authority's financial statements for the fiscal year ended March 31, 2012. It is best understood when read in conjunction with the Authority's financial statements, as described above.

General Overview

Fiscal 2012 finished with a deficit from operations and subsidies of \$.9 million. After adjustment for a \$2.4 million charge for accrued Other Postemployment Benefits (OPEB), which requires no actual funding, net income from operations and governmental subsidies totaled \$1.5 million. Net assets grew by 10%, or \$9.8 million, to a total of \$110.1 million. Available Unrestricted Net Assets (AUNA) at year end increased by 7% from the prior year, reaching \$26.2 million.

Management's continued emphasis on a two pronged business approach, aimed at increasing locally generated revenues while capturing operating cost efficiencies, has been a key factor in the Authority's continuous record of successful financial outcomes over the past six years.

General Overview (Continued)

From an operational perspective, transit service demand across all operating companies totaled 18.4 million customer trips, representing a 3.7% increase from the prior year. The following provides customer trip data for each operating unit, as compared to the prior year.

RGRTA Customer Trips (000's): FY 2012 vs. FY 2011									
	RTS	Lift Line	BBS	LATS	OTS	STS	WATS	WYTS	Consolidated
2012	17,570	168	66	246	46	88	160	92	18,436
2011	16,900	168	63	245	76	79	145	93	17,771
% Change	4.0%	-0.2%	4.2%	0.2%	-40.2%	11.0%	9.8%	-1.0%	3.7%

On a consolidated basis, service productivity, as measured by customers per revenue mile, improved 6.7%. The chart below compares service productivity for each operating company over the past two years.

Customers Per Revenue Mile: FY 2012 vs. FY 2011									
	RTS	Lift Line	BBS	LATS	OTS	STS	WATS	WYTS	Consolidated
2012	3.59	0.13	0.51	0.55	0.27	0.36	0.22	0.22	2.20
2011	3.33	0.13	0.47	0.56	0.33	0.31	0.20	0.24	2.07
% Change	8.0%	0.1%	7.1%	-1.2%	-19.0%	15.9%	8.4%	-5.2%	6.7%

Customers per revenue mile at RTS, which provides 95% of the Authority's total customer trips, increased for the eighth consecutive year. Over this same period RTS service productivity as measured by customers per revenue mile, has increased nearly 70%, driven by a 25% increase in customer trips and a 26% reduction in vehicle revenue miles.

Statement of Net Assets

Total assets measured \$153.1 million, representing an increase of \$12.2 million or 8.7% over the prior year. Current assets totaled \$40.8 million, decreasing \$10.8 million or 20.9% from the prior year due to the investment of a portion of working capital and various reserve funds in United States government backed securities. Noncurrent assets finished the year at \$112.3 million, increasing \$23.0 million or 25.8%, due to investments in capital assets increasing \$11.3 million, derivative commitments expiring, and the aforementioned investments in government securities.

Total liabilities at year end, were \$43.1 million, increasing \$4.0 million or 10.3% from the prior year. Current liabilities totaled \$17.9 million, increasing \$1.5 million from the prior year driven by an increase in reserves for litigated claims. The Workers' Compensation Reserve totaled \$3.9 million at year end. As shown on the chart below, Workers' Compensation Reserves have decreased \$2.3 million or 37% over the past five years as the result of a sustained effort to strengthen case management and improve safety practice.

Long-term liabilities totaled \$25.2 million, increasing \$2.5 million or 11.1%. This increase primarily results from a \$2.4 million charge for accrued OPEB benefits, accompanied by increased reserves for environmental remediation liabilities. The Authority's total actuarial accrued OPEB liability at year end was \$24.8 million. The fiscal 2012 annual required contribution (ARC) for OPEB totaled \$5.5 million. For the past several years management has been striving to control the growth of both annual and long-term health insurance costs. As of March 31, 2012, the total actuarial accrued liability for OPEB was \$66.8 million and the OPEB reserve fund contained \$8.7 million.

Total net assets were \$110.1 million, representing an increase of \$9.8 million or 9.7% over the prior year. Invested in capital assets (net) rose to \$87.3 million, while unrestricted net assets ended the year at \$22.8 million, decreasing \$1.6 million or 6.7% from the prior year.

Statement of Net Assets (Continued)

Note: Totals may not foot due to rounding differences				

Available Unrestricted Net Assets (AUNA)

AUNA are those unrestricted net assets not designated for any specific purpose and are available to fund future operating costs or other uses as determined by the Board of Commissioners. As shown in the table below, AUNA totaled \$26.2 million as of March 31, 2012, representing an increase of \$1.7 million, or 6.9% from the prior year. These assets provide the Authority with important flexibility to meet future financial challenges.

Calculation of Available Unrestricted Net Assets as of 03/31/12				
	3/31/2012	3/31/2011	Variance	%
Unrestricted net assets	\$ 22,779	\$ 24,414	\$ (1,635)	-7%

Operating Revenue

Total operating revenue for the fiscal year was \$30.8 million, increasing \$2.0 million or 7% from the prior year. The chart below contains a summary comparison of the major categories of operating revenue for the past two fiscal years.

Operating Revenue Comparison (Millions)				
	<u>2012</u>	<u>2011</u>	<u>Change</u>	<u>% Change</u>
Customer Fares	\$ 11.3	\$ 11.8	\$ (0.5)	-4.4%
Special Transit Fares	15.7	15.2	0.5	3.4%
Other	3.8	1.8	2.0	110.1%
Total	<u>\$ 30.8</u>	<u>\$ 28.8</u>	<u>\$ 2.0</u>	<u>7.0%</u>

Customer Fares

Customer fare revenue includes cash fares paid onboard the bus and prepaid fare media sales to individual customers and various local agencies that distribute bus passes to their clients. These revenues totaled \$11.3 million during 2012, declining \$.5 million or 4.4% from the prior year, due to a reduction in fare media purchased by social service agencies. The average RTS fare per customer for cash and fare media based trips was \$.86, compared to \$.95 for the prior year.

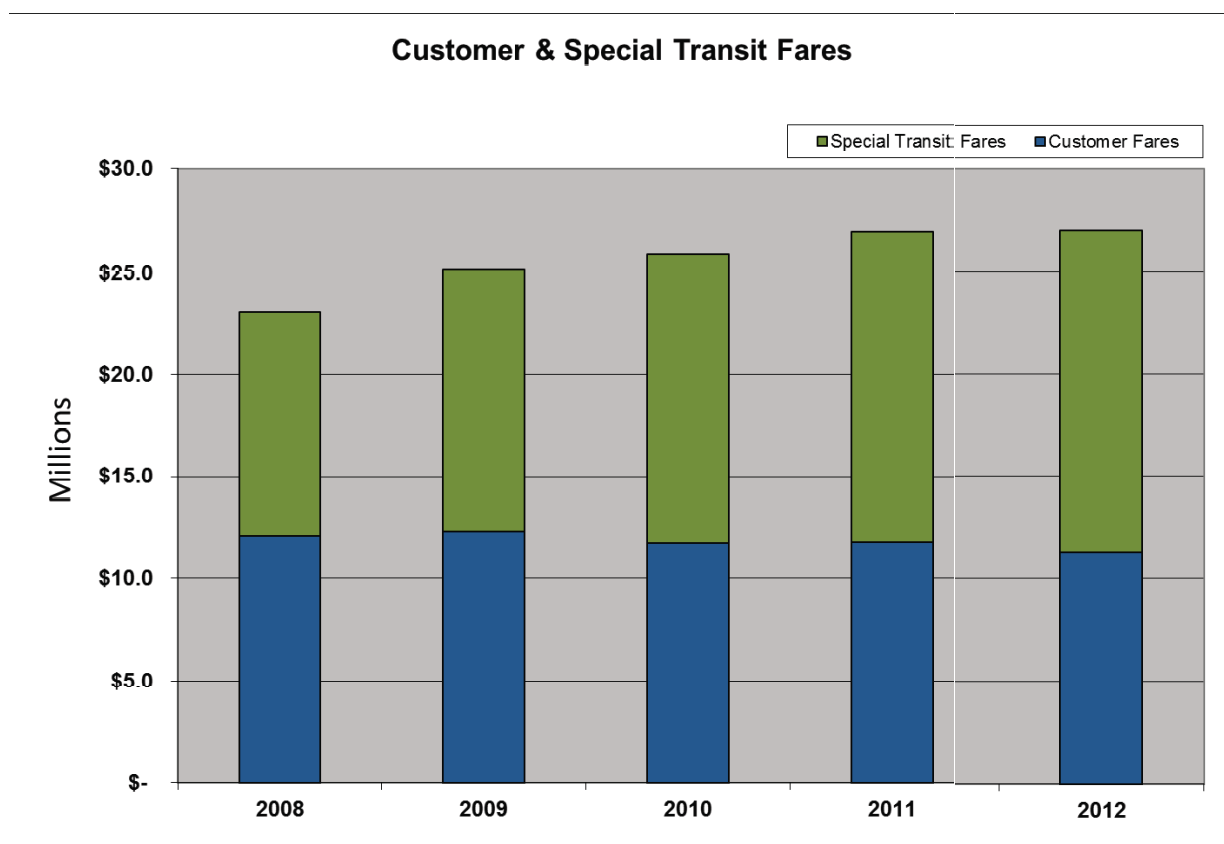

Special Transit Fares

Special transit fares are derived from fixed route subsidy agreements with business partners such as educational institutions and other community organizations (both non-profit and for-profit) which benefit from public transit service.

The establishment of a Business Development Department in 2009 has enabled the Authority to continuously focus efforts toward the establishment and maintenance of these important relationships.

During 2012, revenue from subsidy agreements grew by \$.5 million or 3.4%, totaling \$15.7 million. The following chart illustrates the annual growth of both customer fares and special transit fares over the past five years. The growth of special transit fare revenue streams has enabled the Authority to reduce its dependence on governmental operating subsidies.

Special Transit Fares (Continued)

Other Operating Revenue

Other operating revenue includes advertising fees and various recoveries or reimbursements from other parties. These revenues totaled \$3.8 million during 2012, increasing \$2.0 million or 110% from the previous year. This increase is largely driven by fuel price hedge transactions which totaled \$1.2 million.

Nonoperating Income (Expense)

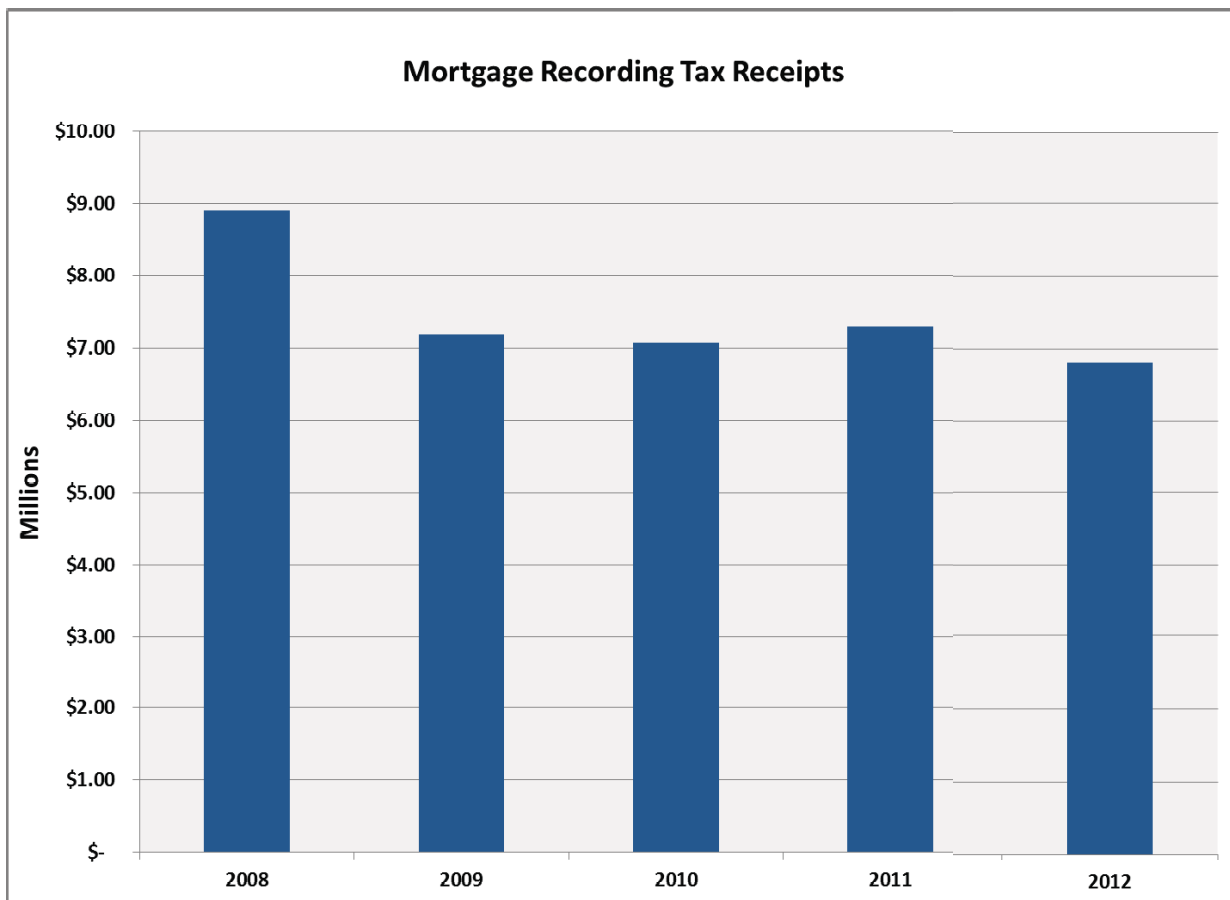

The major components of nonoperating income (expense) are Mortgage Recording Tax (MRT), investment earnings, and other miscellaneous gains or losses. Nonoperating income (expense) for 2012 totaled \$7.2 million, an amount slightly lower from the prior year.

Nonoperating Revenue (Expense) (000's)				
	<u>2012</u>	<u>2011</u>	<u>Change</u>	<u>% Change</u>
Investment Earnings	\$ 114	\$ 223	\$ (109)	-49%
Mortgage Recording Tax	6,807	7,300	(493)	-7%
Other	250	(266)	516	-194%
Total	\$ 7,171	\$ 7,257	\$ (86)	-1%

Investment interest rates available from certificates of deposit or money market accounts continued to fall during 2012, declining from 50 basis points (bps) to 25 bps, and exacerbating the challenge of generating interest earning revenues from the Authority's significant liquid assets. To counteract this phenomenon, during the final quarter of fiscal 2012, the Authority broadened its treasury management strategy to include investments in higher yielding government backed securities, utilizing the assistance of a professional fixed income investment advisor. As of March 31, 2012, a portfolio of such securities totaling approximately \$21.8 million had been assembled.

Nonoperating Income (Expense) (Continued)

Fiscal 2012 MRT revenues totaled \$6.8 million, decreasing 6.8% from the prior year. It should be noted that MRT receipts during the first quarter of 2011 were boosted significantly from the tail end of a federal stimulus program that was very successful in encouraging consumers to enter the housing market. Unfortunately, the stimulus was short lived. So despite the comparative decline of total MRT revenues from 2011 to 2012, the overall trend for monthly MRT receipts was modestly positive; reflecting a gradual improvement in the local real estate market. Annual MRT receipts over the past five years are shown in the chart below.

**External Operating Assistance Subsidies****Member Counties**

New York State Transportation Law (section 18B) requires that each member county of the Authority annually provide a fixed operating subsidy for public transportation services provided within their respective jurisdictions. The combined total of these annual subsidies is \$3.7 million, which represents approximately five percent (5%) of total revenues supporting transit operations.

External Operating Assistance Subsidies (Continued)

Member Counties (Continued)

Member County Annual 18B Contribution	
<u>County</u>	<u>Amount</u>
Monroe	\$ 3,524,051
Genesee	53,282
Wyoming	20,120
Wayne	38,378
Orleans	30,181
Livingston	35,024
Seneca	<u>24,964</u>
Total	<u>\$ 3,726,000</u>

State of New York

The largest single revenue source supporting transit operations is New York State Transit Operating Assistance (STOA). During 2012, STOA was \$31.2 million, essentially flat from the prior year.

Federal Aid

There are five main components of federal aid provided to the Authority which support public transportation operations. They are formula capital assistance under the Section 5307 program for urban transit only; New Freedom; formula assistance under the Job Access and Reverse Commute (JARC) program; planning grants through the Unified Planning Works Program (UPWP); and rural transit operating support under the Section 5311 program. Formula aid is awarded to public transportation providers across the country based upon congressional appropriations and is allocated using a complex formula combining elements of population, revenue miles, customers, and other factors. Traditionally, the Authority allocates approximately one-third of the annual 5307 grant to offset preventive maintenance costs within its operating budget. The balance is designated for capital investment purposes.

During 2012, the Authority received a total of \$7.8 million in federal operating subsidies, remaining flat from the prior year. The chart below provides a detailed comparison of the various federal operating subsidies for 2012 and 2011.

It should be noted that the annual operating expenses of GTCS, Inc., the administrative host agency of the Genesee Transportation Council, are entirely supported by grants from the federal government.

Federal Operating Subsidies (000's)			
Program	2012	2011	Change
JARC	\$ 364	\$ 353	\$ 11
New Freedom	19	38	(20)
Formula (5307)	5,216	5,338	(122)
UPWP	261	124	137
Rural transit (5311)	509	462	47
Other	204	86	118
GTCS	1,220	1,416	(195)
Total	<u>\$ 7,792</u>	<u>\$ 7,816</u>	<u>\$ (24)</u>

Operating Expenses

Total operating expenses (excluding depreciation) for 2012 were \$80.5 million, representing an increase of \$6.3 million or 8.4% from the prior year.

Personnel

Fiscal 2012 personnel expenses, including wages, benefits, and accruals for liabilities related to Other Postemployment Benefits (OPEB), totaled \$59.4 million, increasing \$4.2 million or 7.7% from the prior year.

Personnel Expenses (millions)	2012	2011	Change	% Change
Salaries and Wages	\$ 40.2	\$ 37.9	\$ 2.3	6.1%
Employee Benefits	16.8	15.4	1.4	8.8%
Retroactive wage accrual variance	-	(0.4)	0.4	-100.0%
Sub-Total	57.0	52.9	4.1	7.8%
Other postemployment benefits	2.4	2.3	0.1	5.0%
Total	\$ 59.4	\$ 55.2	\$ 4.2	7.7%

Personnel (Continued)

Total salaries and wages for 2012 were \$40.2 million, increasing \$2.3 million or 6.1% from the prior year. The number of full time equivalent positions totaled 681 as compared to 684 in the prior year.

Employee benefit expenses totaled \$16.8 million, increasing \$1.4 million or 8.8% from the prior year.

Non personnel

Non-personnel expenses include a variety of categories, such as fuel and lubricants; vehicle parts and shop supplies; contracted services; utilities; insurance and liability costs; and miscellaneous costs. Non-personnel expenses for 2012 totaled \$21.1 million, increasing \$2.1 million or 10.9% from the prior year, after adjusting fuel costs to recognize net hedge cash flows.

Non Personnel Expenses	2012	2011	Change	% Change
Contracted Services	\$ 4,707	\$ 4,369	\$ 337	7.7%
Fuel/Lubricants (net of hedge)	6,458	5,987	471	7.9%
Vehicle Parts	2,977	3,219	(242)	-7.5%
Other Materials/Supplies	1,395	1,443	(48)	-3.3%
Utilities	769	833	(64)	-7.7%
Casualty & Liability	2,110	1,776	334	18.8%
Miscellaneous/Other	2,665	1,486	1,179	79.3%
Total	\$ 21,081	\$ 19,114	\$ 1,967	10.3%

Capital Contributions

Capital contributions made by the Authority are funded by a combination of federal and/or state grants and local monies from the Authority's capital reserve fund. The standard share allocation is 80% federal, 10% state, and 10% local. In the past, the Authority has also been the recipient of \$16 million federal stimulus grant allocations. During fiscal 2012 the Authority made capital investments totaling \$23.0 million. A summary of the various types and funding sources is shown in the chart below. Additional information regarding capital asset activity can be found in note 5 (Capital Assets) in the notes to the financial statements.

2012 Capital Contributions (000's)	
Investments by Major Category	Total
RTS Buses	\$ 10,093
LL and Regional Buses	403
RTS Transit Center	1,291
Site Improvements	9,419
Non Revenue Vehicles	27
TIDE	927
Leasehold Improvements	28
Other	796
Total	\$ 22,984
Supporting Funding Sources	
Federal	\$ 19,666
State	1,578
Total Grant	\$ 21,243
Local	1,740
Total Funding Source	\$ 22,984

RTS Transit Center

During fiscal 2011, the Authority obtained federal approval to proceed with a modified version of the former Renaissance Square Project. The modified project is a stand-alone RTS Transit Center to be located on Mortimer Street in downtown Rochester. As of March 31, 2012, design reached 50% completion and a total of \$5.1 million has been invested in the modified project which has a total estimated cost of approximately \$49 million. During fiscal 2012, the Authority spent \$1.3 million advancing project design and defending litigation which has delayed property acquisition and required a revision to the project schedule. The projected opening of the new facility is summer 2014.

TIDE

During 2012 investments totaling \$.9 million moved the Authority towards full implementation of its major technology project known as TIDE (Technology Initiatives Driving Excellence). TIDE investments enhanced the customer travel experience with the installation of information signs displaying real time next bus arrival times at the busiest travel locations. Real time information was further expanded to mobile phones with the launch of "Where's My Bus," which sends an automated response with the next bus arrival time.

RTS Campus and Site Improvements

During 2012, significant progress was achieved on Phase One of a planned three phase improvement project for the RTS campus located at 1372 East Main Street. These facilities were constructed in 1974 and require significant upgrades to improve safety, efficiency, and security for bus and administrative operations. Phase One involves the construction of a \$13.3 million addition, renovations, and related site improvements for the Authority's administrative building. The completion of phase One will occur in October 2012. Phases Two and Three of the project encompass improvements to the Operations and Service buildings and a proposed expansion of the campus footprint to provide additional parking and improved traffic circulation. The total estimated costs for these next two phases are \$35.8 million. Federal funding for Phase Two (\$13.2) is expected to receive final FTA approval by September 2012. Funding for Phase Three (\$22.6) has not yet been secured.

Conclusion

The Authority's continued emphasis on strategic planning and performance measurement have been key to the achievement of the strong financial position which it now enjoys. Looking ahead, the Authority is well-positioned to continue providing quality public transportation to its customers. For additional information or inquiries, interested parties should contact the Authority's Chief Financial Officer, Mr. Robert Frye.

ROCHESTER-GENESEE REGIONAL TRANSPORTATION AUTHORITY

(A Component Unit of the State of New York)

NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 2012

1. THE ORGANIZATION

The Rochester-Genesee Regional Transportation Authority (the Authority or RGRTA) was created in 1969 by an act of the New York State Legislature to provide for the continuance, further development and improvement of public transportation and other related services within the Genesee/Finger Lakes Region. The Authority is subject to regulation by the Comptroller and Department of Transportation of the State of New York with respect to the maintenance of its accounting records. The Authority is considered a component unit of New York State because of the significance of its operational and financial relationship with New York State. The Authority's 13-member Board of Commissioners is recommended by the local governing body, appointed by the governor of New York State, and confirmed by the New York State Senate. Financial support from New York State includes annual appropriations to help meet operating expenditures.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Statements

The financial statements include the accounts of the Authority, and its nine (9) blended component units for which the Authority is financially accountable. The Authority's 13-member Board of Commissioners is comprised of individuals from each member county. The Board of Commissioners oversees public transportation for its member counties: Monroe, Genesee, Livingston, Orleans, Seneca, Wayne and Wyoming Counties. The Authority's Board also serves as the board for Genesee Transportation Council Staff, Inc. (GTCS) an entity which serves as the administrative host agency for the Genesee Transportation Council (GTC), which is the metropolitan transportation planning organization for the Genesee-Finger Lakes Region; GTCS is reported herein as a blended component unit. The nine component units are legally separate organizations and are collectively referred to as "the Organizations."

Based on the foregoing criteria, the Authority and the following component units have been audited and are included in the financial statements:

- Regional Transit Service, Inc. (RTS)
- Lift Line, Inc. (Lift Line)
- Batavia Bus Service, Inc. (BBS)
- Livingston Area Transportation Service, Inc. (LATS)
- Orleans Transit Service, Inc. (OTS)
- Seneca Transit Service, Inc. (STS)
- Wayne Area Transportation Service, Inc. (WATS)
- Wyoming Transit Service, Inc. (WYTS)
- Genesee Transportation Council Staff, Inc. (GTCS)

Significant inter-entity accounts and transactions have been eliminated in the accompanying financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting

The Authority's and the Organizations' financial statements have been prepared in conformity with accounting principles generally accepted in the United States as set forth by the Governmental Accounting Standards Board.

Private sector standards of accounting and financial reporting issued prior to December 1, 1989 generally are followed in the Organizations' statements to the extent they do not conflict or contradict guidance of the Governmental Accounting Standards Board (GASB). Governments also have the option of following subsequent private sector guidance for their business type activities and enterprise funds. The Organizations have elected not to follow subsequent private sector guidance.

Recent Accounting Pronouncements

During December 2010, GASB issued statement No. 61 "*The Financial Reporting Entity: Omnibus*." This statement updates and improves existing standards regarding financial reporting standards for including, presenting, and disclosing information about governmental component units, including equity interests. The Authority has adopted the provisions of this statement for the year ended March 31, 2012. The implementation of the provisions of this statement did not have a material effect on the financial statements of the Authority and the Organizations.

In July 2011, GASB issued statement No. 63 "*Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*." This statement updates and improves existing standards by providing users with information about how past transactions will continue to impact a government's financial statements in the future. The statement requires that deferred outflows of resources and deferred inflows of resources be reported separately from assets and liabilities. Assets that would fall under this standard include derivative instruments. The Authority adopted the provisions of this statement as of the year ended March 31, 2012. The implementation of the provisions of this statement did not have a material effect on the financial statements of the Authority and the Organizations.

Basis of Presentation

GASB requires the classification of net assets into three components - invested in capital assets, net of related debt; restricted and unrestricted. These classifications are defined as follows:

- Invested in capital assets, net of related debt - This component of net assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net assets component as the unspent proceeds. As of March 31, 2011 RTS is the only entity with a reduction of its net assets invested in capital assets for debt. None of the entities had a reduction of their net assets invested in capital assets for debt at March 31, 2012.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation (Continued)

- Restricted - This component of net assets consists of amounts which have external constraints placed on use imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. The Authority and the Organizations have no restrictions on their net assets at March 31, 2012 or 2011.
- Unrestricted - This component of net assets consists of assets within total net assets that do not meet the definition of "invested in capital assets, net of related debt" or "restricted."

Cash and Short-Term Investments

Cash and short-term investments include cash on hand, money market accounts, and certificates of deposit with an initial term of less than three months. The Authority considers investments in money market accounts, and certificates of deposit with an initial term of less than three months that are not designated for other use to be short-term investments.

Accounts Receivable

Accounts receivable consists primarily of amounts due from customers for services provided and for advertising. Management records an allowance for doubtful accounts based on past collection experience and an analysis of outstanding amounts. When appropriate collection efforts are exhausted, the account is written off. Management considers the accounts receivable to be fully collectible at all Organizations except for BBS, LATS, STS, WATS and WYTS and accordingly, other than at BBS, LATS, STS, WATS and WYTS which have recorded allowances of \$16,544, \$257, \$617, \$267 and \$93,058, respectively for the year ending March 31, 2012, no allowance for doubtful accounts has been established. For the year ended March 31, 2011 except for BBS, LATS, and WYTS which recorded allowances of \$18,940, \$1,940 and \$18,177, respectively, no allowance for doubtful accounts has been established.

Mortgage Recording Tax Receipts

The Authority receives a portion of mortgage recording tax receipts equal to \$.25 for every \$100 of borrowings in the form of new mortgages and the refinancing of existing mortgages from the counties in which the component units conduct operations, not including mortgages of tax-exempt organizations. The amounts earned during the year have been recorded as mortgage tax receipts in the accompanying statements of revenue, expenses and changes in net assets. Any amounts due but not yet collected have been recorded as mortgage tax receipts receivable in the accompanying statements of net assets. Management considers mortgage tax receipts receivable to be fully collectible; accordingly, no allowance for doubtful accounts has been established.

Operating and Capital Assistance Grants

The Authority and the Organizations receive operating and capital assistance subsidies and grants from the U.S. Department of Transportation under operating and capital assistance grant contracts. The Organizations also receive operating and capital assistance from the New York State Department of Transportation and local counties based on legislated awards. The amounts received or contractually receivable under such grants have been recorded as external operating assistance subsidies in the accompanying statements of revenue, expenses and changes in net assets. These amounts are obtained on an annual basis. Management considers operating and capital assistance receivables to be fully collectible; accordingly, no allowance for doubtful accounts has been established. Continued operations depend upon receipt of such subsidies in future years.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Materials and Supplies Inventory

Materials and supplies inventory consists primarily of replacement parts for buses and is recorded at the lower of cost determined on a first in, first out basis or market. An allowance for obsolete inventory is maintained based on historical experience and a review of inventory on hand. RTS has recorded an allowance for obsolete inventory of \$180,363 and \$166,654 for 2012 and 2011, respectively.

Capital Assets

Capital assets are recorded at cost if purchased, or fair value, if donated. The Authority and the Organizations capitalize all expenditures for capital assets in excess of \$5,000 and which have useful lives greater than one year. Depreciation is provided on a straight-line basis over the estimated useful lives as follows:

Land improvements	5 - 10 years
Building and structures	2 - 40 years
Revenue vehicles	3 - 12 years
Non-revenue vehicles	2 - 5 years
Maintenance equipment	4 - 10 years
Other equipment	2 - 10 years
Computer equipment	1 - 10 years

Leasehold improvements are amortized over the shorter of the remaining lease term or the asset's estimated useful life.

Investments

Investments in government securities are recorded at their fair value based on quoted market prices and valuations provided by external investment managers. Unrealized gains or losses on such investments result from differences between the cost and fair value of investments on a specified valuation date. Gains and losses in the fair value are reported in the statement of revenue, expenses and changes in net assets. Investment income is recognized on the accrual basis; dividends are recorded on the ex-dividend date.

Investments designated for self-insurance purposes consist of money market accounts and government securities and are carried at cost plus accrued interest, which approximates fair value and are utilized to pay claims over a certain amount, as determined by the Board of Commissioners. Otherwise, claim payments are made from undesignated deposits and investments.

Investments designated for capital reserve purposes are utilized to fund the Authority's share of capital purchases.

Investments designated for other postemployment benefits reserve purposes represent a reserve to be maintained until establishment of a dedicated trust for the purpose of funding other postemployment benefits.

Investments designated for the paratransit reserve fund are to be utilized to support paratransit transportation services. The principal of this reserve fund is not to be used except to generate interest earnings to support paratransit transportation services until otherwise directed by the Board of Commissioners.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Inter-Entity Cost Allocations

The Authority, RTS and Lift Line allocate costs to the Authority and the Organizations based on estimates of time incurred to reflect the portion of salaries and benefits of Authority, RTS, and Lift Line employees who perform administrative functions for the Authority and the Organizations.

Authority Subsidies

Annually, the Authority subsidizes the operations of the Organizations, except for GTCS, based on each respective Organization's operating results. In order to determine the annual subsidy, operating and certain non-operating revenues and external operating subsidies are reduced by operating and certain non-operating expenses and locally funded depreciation. If the result is a deficit, that amount will be recorded as operating subsidy at the respective Organization. Operating surpluses are reflected as negative subsidies or re-allocations, back to the Authority. No cash is ever transferred to or from the Organizations related to these subsidies. Therefore, each year the value of the receivable/payable recorded at year-end is recorded as a write-off of inter-entity accounts on the accompanying statements of revenue, expense and changes in net assets.

Expenses

Amounts reported as operating expenses are from providing services in connection with the Authority's and Organizations' ongoing transportation operations. The principal operating expenses of the Authority and the Organizations include salaries, employee benefits, supplies and depreciation. All expenses not meeting this definition are reported as nonoperating expenses.

Revenues

Amounts reported as operating revenue are from providing services in connection with the Authority's and the Organizations' ongoing transportation operations. The principal operating revenues of the Organizations include customer fares, special transit fares, advertising, and various other recoveries and reimbursements are considered operating. All revenues not meeting this definition are reported as nonoperating revenues.

Capital Contributions

The United States Government and New York State provide funds for a significant portion of the cost of capital purchases made by the Organizations. When these capital assets are recorded, the government's portion of the funding is reflected in the accompanying statements of revenue, expenses and changes in net assets as federal and state capital contributions.

Income Taxes

The Authority and the Organizations are public benefit corporations and are exempt from federal and state income taxes, as well as state and local property and sales taxes.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. CASH, SHORT-TERM INVESTMENTS, AND GOVERNMENT SECURITIES

The Authority maintains cash, short-term investments and government securities. The Authority's cash, short-term investments and government securities are reported as follows in the Statements of Net Assets as of March 31:

	<u>2012</u>	<u>2011</u>
Current Assets:		
Cash and short-term investments	\$ 20,170,991	\$ 29,729,975
Investment of self-insurance fund	3,658,448	5,023,801
Investment of capital reserve fund	4,316,372	4,738,630
Noncurrent Assets:		
Investment of other postemployment benefits reserve fund	81,843	8,655,423
Investment of paratransit reserve fund	3,125,582	3,119,862
Government securities	21,826,908	-
Liabilities:		
Cash overdraft	<u>(1,596,230)</u>	<u>(1,308,392)</u>
	<u>\$ 51,583,914</u>	<u>\$ 49,959,299</u>

Cash, short-term investments and government securities consisted of the following as of March 31:

	<u>2012</u>		<u>2011</u>	
	<u>Carrying Amount</u>	<u>Bank Balance</u>	<u>Carrying Amount</u>	<u>Bank Balance</u>
Bank demand deposit	\$ (1,573,158)	\$ 394,069	\$ (1,245,062)	\$ 668,308
Money market funds	31,330,164	31,330,164	51,204,361	51,204,361
Government securities	<u>21,826,908</u>	<u>21,826,908</u>	<u>-</u>	<u>-</u>
	<u>\$ 51,583,914</u>	<u>\$ 53,551,141</u>	<u>\$ 49,959,299</u>	<u>\$ 51,872,669</u>

Collateral

As of March 31, 2012, the reported amount of the Authority's collateral balance was \$29,749,016 and the bank balance was \$31,724,233. Of the bank balance, \$644,069 was covered by federal depository insurance and \$31,701,794 was covered by collateral held by pledging bank or a third-party custodian in the Authority's name. The Authority's investment in government securities is secured by a guarantee from the United States Treasury Department.

3. CASH, SHORT TERM INVESTMENTS, AND GOVERNMENT SECURITIES (Continued)

Investments

The Authority's investments are made in compliance with New York Public Authorities Law Sections 2856, 2890, 2925, 122-gg(4) and 1299-II, and Office of the State Comptroller Investment Guidelines for Public Authorities and State Agencies at 2NCYRR Part 201. In accordance with its Investment Policy, the following is a list of investments the Authority is permitted to invest in:

- Certificates of Deposit with commercial banks or trust companies doing business in New York State and which are also Members of the Federal Deposit Insurance Corporation.
- Time Deposit, Demand Deposit, and Deposits in "Money Market" accounts of commercial banks or trust companies authorized to do business in New York State and which are also members of the Federal Deposit Insurance Corporation.
- Obligations of New York State or the United States Government or obligations the principal and interest of which are guaranteed by the New York state or the United States Government and which have a liquid market with a readily determinable value equal at all times to the amount of the investment.
- Repurchase Agreements for no more than 90 days involving the purchase and sale of direct obligations of the United States of America. The purchase price shall be the present market value of the securities and not the face value. Securities purchased through a Repurchase Agreement shall be valued to market at least weekly.

As of March 31, 2012, the Authority's investments in Government Securities consisted of the following:

	<u>Fair Value</u>	<u>Investment Maturities (in Years)</u>		
		<u>Less Than 1 Year</u>	<u>1-5 Years</u>	<u>Greater than 10 Years</u>
United State Treasury Notes	\$ 16,248,069	\$ -	\$ 16,248,068	\$ -
Government National Mortgage Association	5,556,283	-	-	5,556,283
Cash equivalents	<u>22,558</u>	<u>22,558</u>	<u>-</u>	<u>-</u>
	<u>\$ 21,826,908</u>	<u>\$ 22,558</u>	<u>\$ 16,248,068</u>	<u>\$ 5,556,283</u>

Accrued interest on investments of \$109,731 is included in accrued interest receivables on the statement of net assets.

The Authority's investments in government securities are guaranteed by the United States Treasury Department.

Increases in Fair Value

The net increase in the fair value of investments during 2012 was \$21,826,908. This amount takes into account all changes in fair value (including purchases and sales) that occurred during the year. The unrealized loss on investments held at year-end was \$146,691.

3. CASH, SHORT TERM INVESTMENTS, AND GOVERNMENT SECURITIES (Continued)

Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of a financial institution failure, the Authority's deposits may not be returned. The Authority's investment policy requires that deposits which exceed the amount insured by the FDIC be collateralized by obligations of the United States, or obligations of Federal Agency's, the principal and interest of which are guaranteed by the United States or obligations of the New York State. As of March 31, 2012, the Authority's investments in United States Treasury Notes and Government National Mortgage Association bonds were all rated AAA by a nationally recognized rating organization.

Interest Rate Risk

Interest rate risk is the risk that the fair value of the Authority's investments will decrease as a result of an increase in interest rates. As a means of limiting its exposure to fair value losses arising from rising interest rates, the Investment Policy states that the Authority is to consider protection of principal, then cash flow requirements, and finally yield requirements. The Authority has the ability to liquidate its investments daily for United States Treasury Securities and with up to twenty days notice for its mortgage backed asset securities. In addition, the Authority looks to invest in securities that have a history of making prepayments of interest prior to maturity to ensure a consistent stream of cash flows.

Concentration of Credit Risk

The Investment Policy places no limit on the amount the Authority may invest in any one issuer. As of March 31, 2012, all of the Authority's money market funds were held with JPMorgan Chase. As of March 31, 2012, the Authority's investments in government securities were 74.7% invested in US Treasury Notes and 25.3% were invested in mortgage backed asset securities.

Designations

Short term investments and government securities are designated for the following purposes at March 31, 2012:

	Money Market <u>Funds</u>	Government <u>Securities</u>	<u>Total</u>
Working capital	\$ 20,147,919	\$ 11,910,574	\$ 32,058,493
Self-insurance fund	3,658,448	1,344,097	5,002,545
Capital reserve fund	4,316,372	-	4,316,372
Paratransit reserve fund	3,125,582	-	3,125,582
Other postemployment benefits reserve fund	<u>81,843</u>	<u>8,572,237</u>	<u>8,654,080</u>
Total	<u>\$ 31,330,164</u>	<u>\$ 21,826,908</u>	<u>\$ 53,157,072</u>

3. CASH, SHORT TERM INVESTMENTS, AND GOVERNMENT SECURITIES (Continued)

Inter-Entity Borrowings

Due to the centralized nature of the Authority's and the Organizations' cash management activities, the Authority and the Organizations periodically advance funds to one another as cash flow needs arise. At March 31, 2012, the following represents amounts due from (to) the Authority, RTS and LL, and from (to) GTCS:

	<u>Authority</u>	<u>RTS</u>	<u>LL</u>	<u>GTCS</u>	<u>Total</u>
Authority	\$ -	\$ -	\$ -	\$ (529,285)	\$ (529,285)
RTS	-	-	12,500	(58,796)	(46,296)
Lift Line	-	(12,500)	-	-	(12,500)
GTCS	<u>529,285</u>	<u>58,796</u>	<u>-</u>	<u>-</u>	<u>588,081</u>
Net due to (from)	<u>\$ 529,285</u>	<u>\$ 46,296</u>	<u>\$ 12,500</u>	<u>\$ (588,081)</u>	<u>\$ -</u>

In 2012, the Authority and Organizations wrote-off current year inter-entity receivable (payable) balances, which were not expected to be paid as well as prior year inter-entity receivable (payable) balances which are set forth in the statements of revenue, expenses and changes in net assets as write-off of inter-entity accounts.

4. INTER-ENTITY COST ALLOCATION

During 2012, the Authority, RTS, and Lift Line allocated certain administrative personnel costs to the Authority's component units. The amounts are reported as other operating revenue and as inter-entity cost allocations of the Authority's component units. These amounts are eliminated within the primary government total.

	<u>Authority</u>	<u>RTS</u>	<u>Lift Line</u>	<u>Total</u>

6. CAPITAL LEASE OBLIGATION

During fiscal 2007, the Authority obtained ten Neoplan buses from Metropolitan Transit Authority (MTA) located in Harris County, Texas. In order to deliver and prepare the buses for service at an estimated cost of \$300,000, the Authority entered into a transaction with M&T Bank (the Bank) to finance the cost. The costs to deliver and prepare the buses for service are currently capitalized as a capital asset at RTS on the accompanying statements of net assets. The capital lease bore interest at an annual rate of 3.948%. The lease was paid in full in 2012.

The cost of capital assets under capital lease amounted to \$300,000 as of March 31, 2012 and 2011. Accumulated amortization of capital assets under capital leases was \$300,000 and \$255,000 as of March 31, 2012 and 2011, respectively. Amortization expense for capital assets under capital lease was approximately \$45,000 and \$60,000 for the years ended March 31, 2012 and 2011, respectively.

7. PENSION PLANS

New York State and Local Employees' Retirement System

Plan Description

All of the employees of the Authority (15) and GTCS (6) participate in the New York State and Local Employees' Retirement System (the System). The System is a cost-sharing multiple-employer retirement system. Obligations of employers and employees to contribute and benefits to employees are governed by the New York State Retirement and Social Security Law (NYSRSSL). As set forth in the NYSRSSL, the Comptroller of the State of New York (Comptroller) serves as sole trustee and administrative head of the System. The Comptroller shall adopt and may amend rules and regulations for the administration and transactions of the business of the System and for the custody and control of its funds. The System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the New York State and Local Employees' Retirement System, Governor Alfred E. Smith Office Building, Albany, New York, 12244.

The total payroll for the Authority's employees covered by the System for the years ended March 31, 2012 and 2011 was \$1,914,096 and \$1,910,752, respectively. The GTCS payroll for employees covered by the System for the years ended March 31, 2012 and 2011 was \$497,911 and \$447,570 respectively.

7. PENSION PLANS (Continued)

New York State and Local Employees' Retirement System (Continued)

Funding Policy

Membership, benefits, and employer and employee obligations to contribute are described in the NYSRSSL using the tier concept. Pension legislation established tier membership by the date a member last joined the Retirement Systems and are as follows:

- Tier 1 - Those persons who last became members before July 1, 1973.
- Tier 2 - Those persons who last became members on or after July 1, 1973, but before July 27, 1976.
- Tier 3 - Generally those persons who are State correction officers who last became members on or after July 27, 1976, and all others who last became members on or after July 27, 1976, but before September 1, 1983.
- Tier 4 - Generally, except for corrections officers, those persons who last became members on or after September 1, 1983, but before January 1, 2010.
- Tier 5 - Those persons who last became members on or after January 1, 2010.

Tier 3 and Tier 4 members are required to contribute 3% of their wages to the plan for 10 years. Tier 5 members are required to contribute 3% of their salary for the length of their employment. The plan cannot be diminished or impaired. Benefits can be reduced for future membership only by an act of the New York Legislature. Under the authority of the NYSRSSL, the Comptroller shall certify annually the rates expressed as a percentage of payroll of members, which shall be used in computing the contributions required to be made by employers to the pension accumulation fund. The Authority and GTCS contributions for fiscal years 2012, 2011, and 2010 were equal to the required contributions for the year, and were recorded as expense as follows:

	<u>2012</u>	<u>2011</u>	<u>2010</u>
Authority	\$ 319,275	\$ 200,555	\$ 116,663
GTCS	<u>67,115</u>	<u>50,017</u>	<u>22,780</u>
	<u>\$ 386,390</u>	<u>\$ 250,572</u>	<u>\$ 139,443</u>

Effective May 14, 2003, the System's billings require a minimum employer contribution of 4.5% annually of the fund value at April 1 of the previous fiscal year.

Single Employer Pension Plans

Plan Description

The Authority is the sponsor of four single employer defined benefit pension plans. These plans provide retirement benefits for approximately 1,068 active and inactive plan participants as of March 31, 2012.

- Retirement Plan for Union Employees of Regional Transit Service, Inc. (RTS Union Plan)
- Retirement Plan for General Administrative and Supervisory (Non-Union) Employees of Regional Transit Service, Inc. (RTS Non-Union Plan)
- Retirement Plan for Union Employees of Lift-Line, Inc. (Lift-Line Union Plan)
- Retirement Plan for Non-Union Employees of Lift-Line, Inc. and Rural Properties (Lift-Line and Regional Entities Non-Union Plan)

Each plan provides retirement, disability and death benefits to plan members and beneficiaries. The Board of Commissioners and the Union, if applicable, have the authority to establish and amend the contribution requirements and benefit provisions of each retirement plan.

7. PENSION PLANS (Continued)

Single Employer Pension Plans (Continued)

Plan Description (Continued)

In addition to providing pension benefits, the RTS Non-Union Plan provides certain postretirement health care and life insurance benefits. In accordance with the Plan document, the Authority is not required to contribute a portion of the cost of this expense if the plan is not funded greater than 120%. During fiscal years 2012 and 2011, the Plan was not funded greater than 120%; therefore, the Authority did not fund this expense.

Participants of the RTS and Lift Line Union Plans are represented by Amalgamated Transit Union, Local 282, AFL-CIO and are eligible for coverage on their dates of hire for full-time employment. The Authority is contractually obligated to make contributions on behalf of both Plans. In certain years the contractual obligation could exceed the actuarially calculated annual required contribution.

Separate financial statements for each plan can be obtained by writing to the Rochester-Genesee Regional Transportation Authority, 1372 E. Main St., Rochester, New York, 14609.

Annual required contribution (f)	\$ 949,924	\$ -	\$ 77,722	\$ 67,470
Amortization of unfunded actuarial liability (asset) - including interest	\$ (46,259)	\$ (457,627)	\$ (41,251)	\$ 26,915
Adjustment for net pension obligation	\$ -	\$ -	\$ -	\$ -
Ending balance of net pension obligation	\$ -	\$ -	\$ -	\$ -
Number of members (Active and Inactive)	725	169	60	84

(a) If additional contributions are required to fund the benefits of the plan, plan members are required to contribute up to 0.5% of their salaries to fund the additional contribution. If further additional contributions are required, they are split equally between plan members and RTS.

(b) RTS' policy is to contribute annually an amount equal to the net employer normal cost.

(c) The minimum employer contribution is an amount adequate to fund the normal cost and the cost of past service credits of the plan.

(d) The amortization method used for all plans incorporates equal payments of principal and interest.

(e) The percentage used is increased, as defined in the plan, for employees with more than 20 years of credited service with the employer.

(f) The annual required contribution for the RTS Union and Lift Line Union Plans has been adjusted to be based on the same measure of payroll and contractual obligations as the contributions recognized as additions in the statements of revenue, expenses and changes in net assets.

Effective for the Lift Line Union Plan, for participants that retire after February 3, 2011 the pension benefit multiplier increased from 1.075% to 1.3% retroactive for compensation earned during each year subsequent to April 1, 1992.

8. POSTEMPLOYMENT BENEFITS

Plan Description

The Authority provides certain postemployment insurance benefits to retired RTS union employees and non-union employees of RTS and the Authority. These benefits are provided based upon collective bargaining agreements as well as established practices which together constitute a substantive plan (the Plan). The Authority combines the two plans and administers as a single employer defined benefit Other Postemployment Benefit (OPEB) Plan.

Employees are eligible to participate if they meet the criteria for normal retirement (age 65 and minimum 10 years of service for union, and age 62 and minimum 10 years of service for non-union), disability retirement (15 years of service for union and non-union) or early retirement (age 55 and minimum 25 years of service for union, age 55 and minimum 15 years of service for non-union). The Plan does not issue a stand-alone financial report since there are no assets legally segregated for the sole purpose of paying benefits under the Plan.

Funding Policy

As of the date of these financial statements, New York State has not yet adopted legislation that would enable government entities to establish a Governmental Accounting Standards Board (GASB) qualifying trust for the purpose of funding OPEB benefits. Pending such legislation, the Authority established an OPEB reserve fund in 2007.

Annual OPEB Cost and Net OPEB Obligation

In fiscal 2011 the Authority retained an independent actuarial firm to perform a calculation of the expected value of the Plan's OPEB obligation. This valuation report provides the Authority's obligations for fiscal 2011 in accordance with GASB Statement No. 45, *"Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions."* The valuation was performed using census data as of February 1, 2011 and plan provisions as of April 1, 2010. The valuation was performed as of April 1, 2010. While there is not a requirement to fund the obligation, the Authority has established a reserve fund to provide funding for a dedicated OPEB trust account when permitted to do so by state legislation. The Authority did not obtain a new report in 2012 and used the prior year calculation in the current year to determine the expected value of the Plan's OPEB obligation in accordance with the GASB.

8. POSTEMPLOYMENT BENEFITS (Continued)

Annual OPEB Cost and Net OPEB Obligation (Continued)

The Authority's annual OPEB expense is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with generally accepted accounting principles. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year plus the amortization of the unfunded actuarial accrued liability (UAAL) over a 30 year period. The following tables set forth the components of the Authority's and RTS' OPEB expense for the 2012 fiscal year, the amount actually contributed to the Plan, and the changes in the net OPEB obligation:

	<u>Authority</u>	<u>RTS</u>	<u>Total</u>
Annual required contribution before interest	\$ 85,999	\$ 5,405,801	\$ 5,491,800
Interest on net OPEB obligation	15,663	984,537	1,000,200
Amortization of UAAL	<u>(20,378)</u>	<u>(1,280,922)</u>	<u>(1,302,000)</u>
Annual OPEB cost	81,284	5,109,416	5,190,000
Contributions made	<u>(35,581)</u>	<u>(2,728,890)</u>	<u>(2,764,471)</u>
Increase in Net OPEB Obligation	45,703	2,380,526	2,426,229
Net OPEB Obligation - beginning of year	<u>351,076</u>	<u>22,001,583</u>	<u>22,352,659</u>
Net OPEB Obligation - end of year	<u>\$ 396,779</u>	<u>\$ 24,382,109</u>	<u>\$ 24,778,888</u>

Percentage of Annual OPEB Cost

Schedule of OPEB Cost Contributed

<u>Actuarial Valuation Date</u>	<u>Annual OPEB Cost</u>	<u>% of OPEB Cost Contributed</u>	<u>Contribution (ARC)</u>	<u>% of ARC Contributed</u>	<u>Net OPEB Obligation</u>
4/1/09	\$ 8,294,400	32.4%	\$ 8,531,100	31.5%	\$20,003,800
4/1/10	\$ 5,190,700	55.5%	\$ 5,491,800	52.4%	\$22,124,500
4/1/11	\$ 5,190,000	53.3%	\$ 5,491,800	50.3%	\$24,778,888

Funded Status and Funding Progress

The projection of future benefits for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan as understood by the employer and plan members and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

8. POSTEMPLOYMENT BENEFITS (Continued)

Actuarial Methods and Assumptions (Continued)

In the April 1, 2010 actuarial valuation the following methods and assumptions were used:

Actuarial Cost Method	Projected Unit Credit
Discount Rate*	5.0%
Medical Care Cost Trend Rate	9.0% in fiscal 2011, decreasing by one percentage point per year to an ultimate rate of 5.0% in fiscal 2015 and after.
Dental Care Costs	6.50% in fiscal 2011, decreasing by one-half percentage point per year to an ultimate rate of 5.0% in fiscal 2014 and after.

Unfunded Actuarial Accrued Liability:

Amortization Period	30 years
Amortization Method	Level Dollar
Amortization Basis	Open

* As the plan is unfunded, the assumed discount rate considers that the Authority's investment assets are short term in nature, such as money market funds.

The schedule of funding progress presents information on the actuarial value of plan assets relative to the actuarial accrued liabilities for benefits.

Schedule of Funding Progress for the Plan

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded AAL (UAAL) (b) - (a)	Funded Ratio (a)/(b)	Covered Payroll (c)	UAAL as a % of covered Payroll (b)-(a)/(c)
4/1/08	\$ -	\$ 100,700,000	\$ 100,700,000	0.0%	\$ 20,788,165	484.4%
12/1/09	\$ -	\$ 66,176,500	\$ 66,176,500	0.0%	\$ 24,344,939	271.8%
4/1/10	\$ -	\$ 66,844,000	\$ 66,844,000	0.0%	\$ 27,219,356	245.6%

9. SELF-INSURANCE

The Authority is self-insured up to \$1,500,000 per incident for automobile liability, and is self-insured for workers' compensation, environmental claims, and certain forms of property damage. In addition, the Authority maintains excess automobile liability insurance coverage of \$15,000,000 with outside insurance carriers. The Authority has set aside assets for claim settlement and servicing. All component units of the Authority are covered by these assets.

9. SELF-INSURANCE (Continued)

Claims liabilities are recorded when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines and damage awards, the process used in computing claims liabilities does not necessarily result in an exact amount. Claims liabilities are re-evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. Annually, the Authority engages an actuary to perform a study to estimate the potential exposure related to incurred but not reported claims for workers' compensation.

Workers' Compensation Reserve - 2011

Reserve for Litigated and Unlitigated Claims - 2012

	Balance - March 31, 2011	Current Year Claims and Changes in Estimates	Claims (Payments)/ Recoupments	Balance - March 31, 2012
RTS	\$ 970,965	\$ 938,595	\$ (95,688)	\$ 1,813,872
Lift Line	269,880	305,647	(3,956)	571,571
LATS	-	39,102	-	39,102
STS	-	3,200	(1,200)	2,000
WATS	29,319	119,200	(111,511)	37,008
WYTS	<u>6,859</u>	<u>(4,532)</u>	<u>(1,928)</u>	<u>399</u>
Total	<u>\$ 1,277,023</u>	<u>\$ 1,401,212</u>	<u>\$ (214,283)</u>	<u>\$ 2,463,952</u>

Changes in investments designated for self-insurance during fiscal 2012 are as follows:

Balance - beginning of year	\$ 5,023,801
Interest earnings on self-insurance investment received	16,489
Loss on self-insurance investments, net	<u>(37,745)</u>
Balance - end of year	<u>\$ 5,002,545</u>

The amount of assets segregated for self-insurance has been estimated by the Authority based upon past experience and consideration of current outstanding issues and is not the result of an actuarially determined methodology. It is management's opinion that the assets earmarked for self-insurance are adequate to cover known and incurred but not reported claims.

10. CAPITAL RESERVE FUND

In fiscal 1999, the Board of Commissioners authorized the establishment of a capital reserve fund to accumulate resources for future capital purchases. The capital reserve was funded initially from unappropriated fund balances. During fiscal 2000 and 2007, \$1,200,000 and \$1,000,000, respectively, was added to the capital reserve fund from additional New York State Operating Assistance (STOA) funding. Otherwise, the capital reserve fund has been funded with amounts budgeted for local depreciation, to the extent practicable.

Changes in the investments designated for capital reserve during fiscal 2012 are as follows:

Balance - beginning of year	\$ 4,738,630
Additional funding from local depreciation funds	1,287,800
Additional funding from grant funds	1,410
Authorized disbursements of funds for local share of capital purchases	(1,725,078)
Interest earnings on capital reserve investments	<u>13,610</u>
Balance - end of year	<u>\$ 4,316,372</u>

11. COMMITMENTS

Leases

The Authority leases property under a non-cancelable operating lease agreement expiring April 2013, with annual rent of \$41,014. Rent expense at Lift Line and RTS combined under the terms of this agreement was approximately \$41,000 in 2012. Rent expense will increase to \$42,939 for 2013.

WYTS leases property under a non-cancelable operating lease agreement expiring April 2016, with annual rent of the \$19,800. Rent expense at WYTS under the terms of this agreement was approximately \$20,000 in 2012.

12. FIXED PRICE FUEL SWAP

Fuel Swap

In November 2008, RTS entered into a transaction with the Bank of America/Merrill Lynch (BAML) to mitigate the volatile risk of diesel fuel costs for budgetary and cost control purposes as discussed below for the period April 1, 2010 through March 31, 2012.

Hedge Effectiveness

RTS used the consistent critical terms method to evaluate the hedge effectiveness of the fuel swap contract. This method evaluates effectiveness by qualitative consideration of the critical terms of the hedgeable item (i.e., diesel fuel) and the potential hedging derivative instrument. Under the consistent critical terms method if the critical terms of the hedgeable item and the potential hedging derivative instrument are the same, or similar, the changes in cash flows of the potential hedging derivative instrument will offset substantially the changes in cash flows of the hedgeable item. RTS considered the fuel swap contract to be effective due to the fact that the changes in cash flow from the price of diesel fuel substantially offset the changes in price of the fuel swap contract.

12. FIXED PRICE FUEL SWAP (Continued)

Objectives

RTS entered into the fuel swap contract to reduce the risk of price volatility for diesel fuel supply. The swap contract covered approximately 84% of total fuel establishing a cap on fuel cost per gallon for that portion of fuel needs. The balance of RTS' fuel supply needs were purchased via spot market to take advantage of market prices that fall below the fixed price swap amount per gallon.

Terms

The terms of the RTS fuel swap contract were as follows:

<u>Notional Amount</u>	<u>Counter- Party Credit Rating *</u>	<u>Effective Date</u>	<u>Maturity Date</u>	<u>Terms</u>
125,000 Gallons of Diesel Fuel per month	A -	4/1/2010	3/31/2012	Pay \$2.25 per gallon of diesel fuel receive floating price Gulf Coast Ultra Low Sulfur Diesel Fuel price back.

* As noted by Moody's Investor Services and Standard and Poors.

During 2012, RTS received \$1,180,400, in cash net payments from BAML. During 2011, RTS received \$147,700, in cash net payments from BAML.

Credit Risk

RTS is exposed to credit risk related to the fuel swap contract when it is in an asset position. To mitigate that risk, the total amount of the fuel swap contract asset as of March 31, 2012 and 2011 is the maximum loss that would have been recognized at the reporting date if BAML failed to perform.

RTS' has entered into a credit support agreement with BAML to mitigate the risk of non-performance during the period the fuel swap contract was in effect.

Basis Risk

RTS is exposed to basis risk on the fuel swap contract because the expected commodity purchase being hedged will price based on U.S. spot price, which is a pricing point that is different from the pricing point at which the forward contract is expected to settle.

Termination Risk

The fuel swap contract could terminate at any time if certain events occur that result in one party not performing in accordance with the agreement. The fuel swap contract may terminate due to illegality, a credit event upon merger, or an event of default and illegality. If the fuel swap contract is in a liability position at the time of termination, RTS would be liable for a payment equal to the liability.

13. CONTINGENCIES

The Authority and certain of the Organizations are defendants in various personal injury, property damage liability and labor dispute lawsuits. It is not possible at this time to predict the outcome of the legal actions currently in process or pending against the Authority and the Organizations. In the opinion of management, however, the disposition of the lawsuits will not have a material adverse effect on the financial position of the Authority and the Organizations.

14. SOIL REMEDIATION LIABILITY

Pollution remediation obligations, which are estimates and subject to changes resulting from price increases or reductions, technology, or changes in applicable laws or regulations, occur when any one of the following obligating events takes place:

- An imminent threat to public health due to pollution exists,
- The Authority is in violation of a pollution prevention-related permit or license,
- The Authority is named by a regulator as a responsible or potentially responsible party to participate in remediation,
- The Authority is named or there is evidence to indicate that it will be named in a lawsuit that compels participation in remediation activities, or
- The Authority voluntarily commends or legally obligates itself to commence remediation efforts.

During 2009, RTS identified and estimated costs related to a remediation obligation. RTS recorded a non-operating expense and corresponding liability for soil contamination remediation obligations that do not meet the criteria for capitalization. During 2011, RTS identified and estimated additional remediation obligations related to underground soil contaminations and monitoring and revised its estimated costs accordingly. RTS recognized a loss on change in soil remediation of \$333,130 and has increased its soil remediation liability to \$882,447 as of March 31, 2011, using the cash flow technique.

During 2012, RTS recognized a gain on change in soil remediation of \$181,999 and has decreased its soil remediation liability to \$642,951 as of March 31, 2012, using the cash flow technique.

The Authority had the following activity related to soil remediation for the years ended March 31:

	<u>2012</u>	<u>2011</u>
Soil remediation liability beginning of year	\$ 882,447	\$ 585,310
Expected additional future outlays, increasing liability estimates	-	333,130
Payments for soil remediation	(57,497)	(35,993)
Reduction in liability estimates	<u>(181,999)</u>	<u>-</u>
Soil remediation liability end of year	642,951	882,447
Less: Current portion	<u>(228,250)</u>	<u>(551,879)</u>
Long-term soil remediation liability	<u>\$ 414,701</u>	<u>\$ 330,568</u>

14. SOIL REMEDIATION LIABILITY (Continued)

RTS has estimated it will expend approximately \$228,250 in fiscal 2013 and has recorded this amount as a current liability.

The pollution remediation liability consists of future and present activities associated with the de-contamination of the soil at the RTS operations headquarters. This liability could change over time due to changes in costs of goods and services, changes in remediation technology, or changes in laws and regulations governing the remediation efforts.

15. INVENTORY RESERVE MANAGEMENT

Effective March 31, 2010, RTS terminated its contract with Genuine Parts Inc. (d/b/a NAPA), for the provision of parts supply management services to RTS. The contract required RTS to purchase remaining inventory from NAPA upon termination. RTS has paid NAPA for certain parts in remaining inventory, but withheld payment for a portion claiming that NAPA failed to meet the terms of its service agreement. As of March 31, 2012 and 2011, the parties are in discussions in an attempt to resolve the matter short of litigation. Pending resolution, RTS has recorded a liability on the accompanying balance sheet for \$442,934, which represents Management's estimate of the combined cost of parts in question and legal defense fees.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

June 21, 2012

To the Commissioners of the
Rochester-Genesee Regional Transportation Authority:

We have audited the financial statements of the Rochester-Genesee Regional Transportation Authority and each of its blended component units (collectively, the Authority) as of and for the year ended March 31, 2012, which collectively comprise the Authority's basic financial statements and have issued our report thereon dated June 21, 2012. We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the Authority is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

(Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the Authority in a separate letter dated June 21, 2012.

This report is intended solely for the information of management, the Board of Commissioners, the audit committee and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

STATISTICAL SECTION

Financial Trends 71

These schedules contain trend information to assist the user in understanding and assessing how RGRTA’s financial position has changed over time.

Revenue Capacity 73

These schedules contain information to help the reader assess RGRTA’s most significant revenue source.

Demographic and Economic Information 77

These schedules are intended to assist users in understanding the socioeconomic environment within which a system operates.

Operating Information 80

These schedules are intended to provide contextual information about a system’s operations and resources to assist in using financial information to understand and assess a system’s economic condition.

Rochester Genesee Regional Transportation Authority

Cost Recovery Percentage For Fiscal Years 2003 to 2012

Exclusive of TANF Grants

Fiscal Year	Percentage ¹
2003	33.6%
2004	31.8%
2005	27.8%
2006	28.0%
2007	33.9%
2008	36.6%
2009	37.1%
2010	35.2%
2011	39.8%
2012	39.4%

¹ Represents customer fares and special transit fares plus investment & other non-operating income (excluding mortgage tax revenue) divided by operating expenses before depreciation, excluding unfunded other post employment benefits expense.

Inclusive of TANF Grants

Fiscal Year	Percentage ²
2003	36.9%
2004	37.0%
2005	33.0%
2006	31.0%
2007	38.0%
2008	40.0%
2009	40.4%
2010	38.5%
2011	40.3%
2012	39.8%

² Represents customer fares inclusive of TANF Grants and special transit fares plus investment & other non-operating income (excluding mortgage tax revenue) divided by operating expenses before depreciation, excluding unfunded other post employment benefits expense. TANF grants are included because proceeds of the grant are used to purchase fare media.
