

At RTS, we're working to make our transit system more frequent, more reliable and more connected than ever before. With Reimagine RTS, our consultant has proposed a draft recommendation for a transit system in Monroe County.

So far, we've heard from more than 11,000 customers and stakeholders in the community. And they've told us they'd like faster, more direct routes, shorter wait times, and more frequent service.

Given that input, our consultant is proposing a plan that achieves just that. However, because the plan will result in some changes, we want to be sure we obtain your feedback.

To learn more about our proposed plan and share your thoughts, please attend one of our public events listed in this brochure, visit myRTS.com/Reimagine or give us a call at **585-288-1700**.

Let's reimagine public transit – together.

We want to hear from you.

REimagine RTS

We're creating a bold new plan to bring better public transit to Rochester. Now it's time for your feedback.

Please attend one of our public events listed in this brochure, visit myRTS.com/Reimagine or give us a call at **585-288-1700**.
