

## RGRTA Responses to RTS Access Proposed Facility Public Comments

RGRTA sought public commentary on the RTS Access Proposed Facility in January and February 2024. [View the legal notice.](#) Comments submissions were able to be submitted in person during a 2/28/24 public hearing held at Edison Tech High School, via the RGRTA website at [myRTS.com/contact-us](http://myRTS.com/contact-us), by calling RTS Customer Service at 585-288-1700, or via mailed letter to the RGRTA Legal Department. All comments on the project were due by February 29, 2024 at 4pm.

Below are RGRTA/RTS' responses to received comments. This document is available to view at [myRTS.com](http://myRTS.com). Commentors have been emailed or mailed a copy of this document. All comments and questions received along with RGRTA's responses, and any final adjustments will be submitted to the RGRTA Board of Commissioners in April 2024.

*Note: RTS Access previously asked for feedback on this project and responded to comments in 2023: "[Report of Public Comments Regarding the Proposed Site Location for a New RTS Access Facility](#)" (.pdf)*

Commentor Name	Comment Submission Method	Date of Comment Submission	Question/Comment	RGRTA/RTS Response
Christian Yorgure	myRTS.com	2/29/24	I write to advocate for the visually impaired population in our society. The blind in our communities are often forgotten in our public access development plans. I urge the authorities and every office involved in any aspects of the ongoing development of the new RTS site/center to make access by the blind and visually impaired central to the design. Furthermore, I urge the RTS to adopt new technologies to aid the blind in/when accessing their buses. The RTS can ensure adequate representation and input by collaborating with the ASSOCIATION FOR THE BLIND and VISUALLY IMPAIRED here in Rochester, office located at 500 South Clinton Ave. 585 232 1111. Thank you.	Thank you for sharing your feedback. We will take your comments into consideration while developing our plans for the proposed RTS Access facility as well as future vehicle acquisitions.  RGRTA has a long-standing partnership with Association for the Blind and Visually Impaired (ABVI) and will continue to seek for feedback from ABVI on this and other projects where appropriate.
